EDUCATION

M.A. **Communication Disorders** (GPA: 4.06/4.3) 2020-2023
Ewha Womans University *Seoul, Korea*
• Masters Thesis: “*The Impact of the Home Literacy Environment on Early Literacy and Vocabulary Skills in Korean-English Bilingual Children.*” (Advisor: Dongsun Yim, Ph.D.)
• Committee: Dongsun Yim, Ph.D., Hyunsub Sim, Ph.D., Hyeyoon Seol, Ph.D.

B.A. **Linguistics** (GPA: 4.21/4.5) 2015-2020
Korea University *Seoul, Korea*

Student Exchange Program *University of New South Wales* 2019
Sydney, Australia

WORK EXPERIENCE

03/2023 – present **Online Speech-Language Pathologist**
• Provide interventions in Korean and English online for a Korean-English bilingual child (8-year-old) residing in Canada targeting language and literacy development.
• Adapt intervention methods for online delivery to ensure child engagement and progress.
• Initiated intervention at age 5 when both Korean and English language abilities were below the 10th percentile; after one year of treatment, re-evaluation indicated age-appropriate average-range performance in both languages.

12/2023 – 10/2025 **Language Intervention Specialist – Interactive Book Reading**
I Say Lab *Seoul, Korea*
• Facilitated language development in Korean monolingual and Korean-English bilingual children (ages 3-10), including those with and without language delays, through interactive book-reading interventions.
• Designed and developed age-appropriate, book-based activity materials to support language facilitation and early literacy skills.
• Planned and led book-reading camps in partnership with local festivals to increase community access to services and promote public awareness of early literacy and language development.

- 09/2020 – 10/2025 **Research Assistant**
Child Language Lab, Ewha Womans University *Seoul, Korea*
 (PI: Dongsun Yim, Ph.D.)
- Recruited participants.
 - Conducted experiments on various topics.
 - Wrote language assessment reports.
 - Compiled and managed further collection of experimental data.
 - Developed experimental tasks.
 - Analyzed experimental data.
 - Wrote research papers.
 - Presented studies at conferences.
 - Led a project.
- 05/2024 – 12/2024 **Korean-English Bilingual Speech-Language Pathologist**
I Care Counseling Center *Pyeongtaek, Korea*
- Provided interventions for Korean monolingual/Korean-English bilingual/English monolingual children with various speech/language difficulties (e.g., ASD, ID, SSD, PLI, stuttering, dyslexia, etc.).
 - Tracked language development and monitored the effectiveness of interventions over time.
 - Consulted parents on home-based strategies to support development.
 - Completed session notes and maintained accurate documentation for clinical paperwork.
- 09/2023 – 08/2024 **English Instructor**
Yonsei Severance Hospital with KT Kkoompoom Classroom *Seoul, Korea*
- Delivered English instruction to elementary students with cochlear implants, adapting lessons to support auditory processing and language acquisition.
 - Developed individualized, age-appropriate materials to enhance engagement and communication skills.
- 04/2021 – 10/2023 **Korean Teacher**
Korean Global Studio *Jakarta, Indonesia*
- Taught Korean online to KFL learners (beginners, intermediate, and advanced).
- 09/2021 – 08/2022 **Graduate Student Clinician**
Ewha Womans University *Seoul, Korea*
Jai Hyeonsoon Institute of Speech-Language Development *Seoul, Korea*
- Evaluated language development and assessed technical skills required to operate an AAC system for an 8-year-old child with severe ASD.
 - Assessed language and reading abilities of a 4th-grade student with reading difficulties.
 - Delivered AAC interventions using PECS and customized communication boards, themed to enhance engagement, such as with song lyrics.
 - Implemented interventions to enhance vocabulary and reading skills, tailored to grade-level expectations to support the student's academic progress alongside peers.
 - Prepared comprehensive progress and closure reports to document children's outcomes and treatment effectiveness.

- 09/2020 – 12/2021 **Administrative Assistant**
Ewha Womans University *Seoul, Korea*
- Managed daily correspondence, including phone class, emails, and in-person inquiries.
 - Organized and maintained university records, ensuring accurate data entry and file management.
 - Assisted with the preparation of reports, documents, and presentations for faculty and staff.
 - Scheduled and coordinated meetings, appointments, and departmental events.
 - Supported office operations by ordering supplies and managing inventories.
 - Provided general administrative support to ensure smooth office workflow and helped with ad-hoc tasks as needed.
- 06/2019 – 08/2019 **Volunteer Research Assistant**
Marcus Taft's Lab, University of New South Wales *Sydney, Australia*
 (Supervisor: Marcus Taft, Ph.D.)
- Assisted in conducting an experiment on orthographic processing.

RESEARCH PROJECTS

- 09/2024 – 11/2025 **Reading Skills and Speech Perception in Korean First Graders**
Child Language Lab, Ewha Womans University *Seoul, Korea*
& Mechanisms of Audio/Visual Categorization Lab, University of Iowa *Iowa City, IA*
- Assisted in developing the Korean version of speech perception tasks (Visual Analog Scaling; Apfelbaum et al., 2022).
 - Trained research assistants to conduct the study effectively.
 - Assessed vocabulary, reading skills, episodic buffer, following directions, and speech perception skills in elementary children.
 - Managed and organized collected data.
 - Participated in joint meetings with a collaborating team to discuss interim results.
 - Analyzed data.
 - Drafted the abstract for submission to an international conference.
 - Wrote the article for publication.
- 04/2024 – 10/2025 **Brain Activation and Language Skills in Children and Adults: fNIRS Study**
Child Language Lab, Ewha Womans University *Seoul, Korea*
- Assisted in developing a language assessment task (story retelling) for adults.
 - Conducted assessments of brain activation during episodic buffer and inhibition tasks using fNIRS in children and adults.
 - Trained research assistants to conduct the study effectively.
- 03/2024 – 10/2025 **Developing Bilingual Vocabulary Assessment Tools and Exploring Semantic processing in Bilingual Children**
Child Language Lab, Ewha Womans University *Seoul, Korea*
& Child Language Learning Lab, University of Colorado Boulder *Boulder, CO*
- Developed the Korean version of the Word Association Identification Task and Free Word Association Task (Kan et al., 2024), adding verb stimuli for assessment of semantic processing in Korean monolingual and Korean-English bilingual children.

- Recruited Korean-English bilingual children aged 3 to 10 living in anglophone countries.
- Trained research assistants to conduct the study effectively.
- Assessed children's vocabulary skills with the newly developed tool.
- Managed and organized collected data.
- Participated in joint meetings with a collaborating team to discuss result interpretations.
- Analyzed data and drafted an abstract for submission to an international symposium.
- Wrote the article for publication.

07/2024 – 09/2024

Cognitive and Linguistic Development and Private Education in Korea

Child Language Lab, Ewha Womans University
& *Korea Institute of Child Care and Education*

Seoul, Korea
Seoul, Korea

- Conducted cognitive and linguistic assessments with 1st-2nd grade students to explore their performance in relation to private education expenditure and parental efficacy.

05/2023 – 07/2023

Sentence Comprehension, Grammaticality Judgement, and Rhythm Skills in First Graders

Child Language Lab, Ewha Womans University

Seoul, Korea

- Assessed vocabulary, nonverbal intelligence, narrative production, story comprehension (in independent reading, reading-while-listening, and listening only conditions), sentence comprehension, grammaticality judgement, and rhythm skills in first graders.

08/2022 – 02/2024

Home Literacy Environment and Vocabulary and Early Literacy Skills in Korean-English Bilingual Children

Independent study for Master's thesis

- Developed tasks assessing early literacy skills (phonological awareness, orthographic knowledge, letter name knowledge), translated vocabulary assessments (REVT; Kim et al., 2009; EOWPVT-4; Martin & Brownell, 2011) to evaluate bilingual children's conceptual vocabulary, and transcribed videotaped shared book-reading sessions to analyze parental language input.
- Recruited Korean-English bilingual children aged 4 to 5 in Sydney, Australia and assessed their vocabulary and early literacy skills, and home literacy environment.
- Authored and presented thesis findings at a national conference and published as the first author in an SCI journal.

03/2022 – 11/2023

Executive Function, Narrative, and Reading Comprehension Skills in Elementary Students Across Various Reading Modalities

Child Language Lab, Ewha Womans University

Seoul, Korea

- Assessed vocabulary, nonverbal intelligence, executive function, narrative production, and story comprehension across reading modalities in grades 1-6.
- Analyzed eye-tracking data to explore reading strategies across different reading modalities.
- Presented findings at an international conference and published a paper as the first author in an SCI journal.

02/2022 – 11/2022

Multicultural Adolescents Panel Study

Child Language Lab, Ewha Womans University

Seoul, Korea

- Proposed an analysis topic on linguistic and cognitive development in multicultural adolescents, focusing on heritage language maintenance.
- Designed and presented a conference poster at national and international conferences.

- 03/2022 – 04/2022 **Eye-Movement and Vocabulary Development in Infants with Cochlear Implants**
Child Language Lab, Ewha Womans University Seoul, Korea
- Conducted an eye-tracking study employing the “looking while listening” paradigm with infants with and without cochlear implants.
- 09/2020 – 09/2021 **Language Assessment and Intervention for Bilingual Children**
Child Language Lab, Ewha Womans University Seoul, Korea
- Assessed vocabulary in Korean-English bilinguals using a conceptual scoring method.
- 09/2020 – 04/2021 **Development of Effective Reading Intervention Protocol (Intervention Type and Intensity) for Vocabulary Skills and Application of Parent Training**
Child Language Lab, Ewha Womans University Seoul, Korea
- Assessed vocabulary, non-verbal intelligence, and executive function skills (phonological loop, working memory, episodic buffer, inhibition, processing speed) in preschoolers.
 - Implemented book reading interventions based on a newly developed protocol.
 - Created a presentation poster and delivered at an international conference.
